

Which Shipping Container is Right for You?

Mica Corporation offers a variety of container sizes to ensure you get just the right amount of product delivered to you safely and efficiently every time.

Pails

Our plastic pails have an easy-pour spout built into the lids which make them ideal for small orders or trials.

Specs:

- Holds 40 lb (18 kg) of product (Gross weight: 43 lb/20 kg)
- Comes with gasket providing secure seal
- Recessed lid provides stacking stability with various insert options

Dimensions:

- Height: 14.5" (37 cm)
- Diameter: 12.24" (31 cm)

Shipping: We can ship a maximum of 18 pails per pallet (1248 lb/ 566 kg).

Interested in trying a sample or need less than a pail for a small project? Pint jars & gallon jugs are also available! Please contact your Mica Technical Sales Representative for more information.

Drums

Our closed-head drums are reusable and recyclable and have two openings for your convenience. For information on how to properly dispense MICA product from drums, please ask your technical sales representative for the Primer Intelligence article "Dispensing Mica Primers from Plastic, Closed-Head Drums."

Specs:

- Holds 450 lb (204 kg) of product (Gross weight 471 lb/214 kg)
- 2" NPS threaded opening & plug with male thread
- 2" Buttress threaded opening & plug with male thread

Dimensions:

- Height: 34.80 +/- 0.20" (882 +/-5 mm)
